

GoldFinger

\$GFT

What is \$GFT?

Goldfinger Token (\$GFT) is a high-reward, community-driven Memecoin built on Solana, designed to reward holders and dominate the crypto space. Unlike typical pump-and-dump Memecoins, \$GFT is structured for long-term engagement and sustained growth.

Key Features:

- **Locked Supply:** 50% of the total supply is locked for airdrops.
- **Massive Airdrops:** Every six months, 25% of the total supply is distributed to holders—rewarding those who stay in the game.
- **Play-to-Earn Game Incoming:** More than just holding—\$GFT will integrate into an interactive gaming ecosystem, giving holders more ways to earn and engage.
- **A referral system** that allows users to spread the word by sending their friends a link which allows them to claim \$GFT

Goldfinger isn't just a Memecoin—it's a high-stakes, high-reward ecosystem designed to keep holders winning while leaving paper hands in the dust.

Referral System

Goldfinger Token (\$GFT) isn't just given away—you earn it by spreading the word. Our referral airdrop system makes sure every claim boosts the community, turning every airdrop into viral marketing.

How It Works:

1. *Send the Gold* - Holders can send any amount of \$GFT to a friend by providing their social media profile (Twitter, Telegram, Discord, etc.).
2. *Your Friend Gets Notified* - They receive a claim request along with a custom Goldfinger image displaying the amount sent.
3. *They Must Share to Claim* - To unlock the tokens, they must make a public post mentioning their \$GFT amount and wallet address or tagging the \$GFT account.
4. *They Get the Bag* - Once shared, they instantly receive the airdropped tokens in their connected Solana wallet.

P2E Game

Click your way to the top. P2E clicker game lets users click, stack points, and flex their leaderboard dominance—but there's a catch... you need an invite from a \$GFT holder to play.

How It Works:

1. *Get Invited or Get Left Out* - No invite? No game. Only holders can send invites, making this an exclusive degens-only club. 😎
2. *Click to Win* - Click, grind, and earn points that can be converted into \$GFT rewards.
3. *Compete for Glory* - Climb the leaderboard, earn more rewards, and prove you're the ultimate clicker chad. 🏆

Why It's Genius:

- *Free Crypto, Just for Clicking* - Tap, stack, and watch your bags grow. 💰
- *Holders Hold the Power* - Invites come from real holders, keeping bots and paper hands out. 🛑
- *The More, The Stronger* - New players = bigger community = stronger \$GFT ecosystem. 🔥

It's simple: Get in, click like your life depends on it, and stack those rewards. No invite? Better start making friends. 🚀

Roadmap

1

Launch

Goldfinger Token (\$GFT) will officially launch on the Solana blockchain. Before launch, we will kick off an aggressive marketing campaign to build hype, attract early adopters, and establish a strong community ready to jump in from day one.

2

Game Release

Launch a clicker-style P2E game designed to attract users and build an engaged community. .

3

Friend Referral System

This phase introduces the Friend Airdrop System, enabling holders to send Goldfinger tokens to their friends, spreading the excitement and growing the community organically.

4

Rapid Expansion

In this phase, we focus on strategic growth through high-impact partnerships and CEX listings to take Goldfinger to the next level.

Conclusion

Goldfinger Token (\$GFT) isn't just another memecoin—it's a high-reward, community-driven ecosystem designed for those who play the long game. With airdrops fueling growth, a viral referral system, and an exclusive P2E game, \$GFT ensures that holders don't just watch from the sidelines—they dominate the space.

Our tokenomics reward loyalty, our referral system fuels viral expansion, and our Solana-based infrastructure keeps things fast and efficient. Whether you're stacking \$GFT through airdrops, gaming, or referrals, one thing is clear—holding pays off.

The question is, will you be in when the next airdrop lands? Or will you be watching from the sidelines? 💰🔥

🚀 Hold. Earn. Dominate. 🚀
